Product Name:

Fsc application data: translator, receiver-transmitter, radio set, communication, airborne

Special Features:

Amplifier 1, capacitor 18, chassis 1, coil 7, connector 3, resistor 23, semiconductor device diode 7, transformer 2, transistor 4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
