Overall Length:

4.625 inches

Overall Height:

0.750 inches

Overall Width:

3.187 inches

Product Name:

Fsc application data: converter, frequency, static, electronic identification

Special Features:

Capacitor 13, connector 1, integrated circuit 7, relay 2, resistor 87, printed wiring board 1, semiconductor device diode 28, thermistor 1, transistor 17

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
