Overall Length:

7.375 inches

Overall Height:

0.561 inches

Overall Width:

3.750 inches

Product Name:

Fsc application data: indicator, digital display, communication-identification-navigation

Special Features:

Capacitor 19, coil 3, connector 1, microcircuit 11, printed wiring board 1, relay 1, resistor 39, semiconductor device diode 27, transistor 4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
