Overall Length:

7.928 inches

Overall Height:

0.875 inches

Overall Width:

2.370 inches

Product Name:

Fsc application data: control, power supply, indicator group, multiple display

Special Features:

Amplifier 12, capacitor 33, connector 2, hybrid circuit 1, microcircuit 13, printed wiring board 2, relay 3, resistor 151, semiconductor device diode 13, transistor 20

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
