**Overall Length:**

7.928 inches

**Overall Height:**

0.875 inches

**Overall Width:**

2.370 inches

**Product Name:**

Fsc application data: control, power supply, indicator group, multiple display

**Special Features:**

Amplifier 12, capacitor 33, connector 2, hybrid circuit 1, microcircuit 13, printed wiring board 2, relay 3, resistor 151, semiconductor device diode 13, transistor 20

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
