Overall Length:

6.156 inches

Overall Height:

1.312 inches

Overall Width:

3.800 inches

Product Name:

Fsc application data: amplifier, radio frequency except navigation, nonairborne

Special Features:

Capacitor 28, connector receptacle, electrical 1, integrated circuits 3, printing board 1, resistor 54, semiconductor device, diode 22, transistor 14

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
