Overall Length:

4.250 inches

Overall Height:

0.625 inches

Overall Width:

2.875 inches

Product Name:

Fsc application data: computer, steering, flight system, aircraft

Special Features:

Capacitor 16, connector 1, integrated circuit 2, diode 6, relay 2, printed wiring board 1, resistor 26, transformer 2, transistor 5

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
