Overall Length:

9.822 inches

Overall Height:

0.663 inches

Overall Width:

7.260 inches

End Application:

Training aids and devices

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Trainer flight simulator

Special Features:

Amp 7, cap 15, diode 33, pwb 1, res 49, terminal 7, transistor 13; conn mtd

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
