Overall Length:

3.500 inches

Overall Height:

1.000 inches

Overall Width:

3.250 inches

End Application:

Application data; generator, signal

Special Features:

Major components: diode 2, fuse 1, printed wiring board 1, resistor 24, transistor 9; mtg configuration: plugs into 30 contact connector

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
