Overall Length:

9.822 inches

Overall Height:

0.525 inches

Overall Width:

7.260 inches

End Application:

Training aids and devices

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Trainer flight simulator

Special Features:

Amp 4, cap 20, diode 4, pwb 1, res 36; connector mtd

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
