| Overall Length:                        |
|--|
| 6.050 inches                           |
| Overall Height:                        |
| 0.375 inches                           |
| Overall Width:                         |
| 4.234 inches                           |
| End Application:                       |
| Lgm-30 minuteman missile (mx)          |
| Features Provided:                     |
| Electrostatic sensitive                |
| <b>Criticality Code Justification:</b> |
| Cbbl                                   |
| Special Features:                      |
| Diode 13, pwb 1; connector mtd         |
| Shelf Life:                            |
| N/a                                    |
| Unit Of Measure:                       |
|  |
| Demilitarization:                      |
| Yes - demil/mli                        |
| Fiig:                                  |
| A511k0                                 |
|  |
