Overall Length:

4.100 inches

Overall Height:

0.370 inches

Overall Width:

2.100 inches

End Application:

Type no. Sn-421/tpx-50

Product Name:

Usage design: used as a clock and counter synchronizer

Special Features:

Capacitor 7; connector 1; crystal unit quartz 1; diode 1; inductor 1; integrated circuit 9; pad 2; resistor 5; printed wiring board 1; transistor 2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
