Overall Length:

4.100 inches

Overall Height:

0.450 inches

Overall Width:

2.700 inches

End Application:

Type no. Sn-421/tpx-50

Product Name:

Usage design: used as a buffer no. 1 synchronizer board

Special Features:

Capacitor 10; connector 1; diode 2; integrated circuit 7; pad 5; printed wiring board 1; relay 1; resistor 12; transistor 5

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
