**Overall Length:**

4.000 inches

**Overall Height:**

0.660 inches

**Overall Width:**

3.000 inches

**End Application:**

An/apd-10 airborne radar set

**Special Features:**

Major components: capacitor 8; coil 2; diode 5; insulator 14; printed wiring board 1; resistor 76; transistor 15; mounting configuration: wire lead mtd; functional description: program sequencer

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
