Overall Length:

11.406 inches

Overall Height:

1.281 inches

Overall Width:

4.000 inches

Product Name:

Fsc application data: training sets, countermeasure signals

Special Features:

Capacitor fixed 6; printed wiring board 1; resistor 38; transistor 11; amplifier 2; integrated circuit 6; jack 8; resistor variable 4; semiconductor device diode 11

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
