Section Quantity:

1

Overall Length:

7.278 inches

Overall Height:

2.000 inches

Overall Width:

6.777 inches

End Application:

6625-00-459-3403 electronic circuit test set

Accessory Identifying Number:

5008301 part no. And 5007801 part no. And 5007802 part no. And 5000200 part no.

Mounting Configuration:

Keyed to be inserted in receiver frame in one position only

Panel Material:

Plastic

Receptacle Quantity:

480

Patching Unit Quantity:

1

Precious Material And Location:

Cable assembly contact surfaces gold

Precious Material:

Gold

Supplementary Features:

Includes 19 cable assemblies

Fsc Application Data:

Electrical and electronic componets, miscellaneous

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T122-d
