Section Quantity:

1

Overall Length:

7.278 inches

Overall Height:

2.000 inches

Overall Width:

6.777 inches

End Application:

6625-00-459-3403 electronic plug-in unit test set

Accessory Identifying Number:

5008301 part no. And 5007801 part no. And 5007802 part no. And 5000200 part no.

Mounting Configuration:

Keyed to be inserted in the receiver frame in one position only

Panel Material:

Plastic

Receptacle Quantity:

480

Patching Unit Quantity:

1

Special Features:

Includes 16 cable assemblies

Precious Material And Location:

Lead contact surfaces gold

Precious Material:

Gold

Fsc Application Data:

Miscellaneous components

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T122-d
