**Overall Length:**

5.440 inches

**Overall Height:**

0.590 inches

**Overall Width:**

3.400 inches

**End Application:**

Air defense system support

**Product Name:**

Usage design: used as a low voltage power supply regulator 9000a69-08-25

**Special Features:**

Capacitor 22; choke 4; diode 4; integrated circuit 4; pad 11; rectifier 3; resistor 42; suppressor 3; printed wiring board 1; test jack 7; transistor 11

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
