Overall Length:

5.440 inches

Overall Height:

0.590 inches

Overall Width:

3.400 inches

End Application:

Air defense system support

Product Name:

Usage design: used as a low voltage power supply regulator 9000a69-08-25

Special Features:

Capacitor 22; choke 4; diode 4; integrated circuit 4; pad 11; rectifier 3; resistor 42; suppressor 3; printed wiring board 1; test jack 7; transistor 11

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
