Overall Length:

6.300 inches

Overall Height:

0.437 inches

Overall Width:

3.400 inches

Product Name:

Fsc application data: recorder set, signal data, sound

Special Features:

Capacitor 32, insulator disk 12, integrated circuit 4, printed wiring board 1, resistor fixed 36, resistor variable 4, semiconductor device 24, transformer 4, transistor 8

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
