Overall Length:

2.307 inches

Overall Height:

0.459 inches

Overall Width:

2.276 inches

Product Name:

Fsc application data: transmitting set radio electronic identification

Special Features:

Capacitor 14; coil 2; printed wiring board 1; resistor 16; semiconductor 1; transistor 3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
