Overall Length:

6.500 inches

Overall Height:

1.125 inches

Overall Width:

5.500 inches

Product Name:

Fsc application data: indicator assembly, engine test stand, aircraft

Special Features:

Capacitor 33, connector 2, microcircuit 24, printed wiringboard 1, resistor 61, semiconductor device, diode 18, transistor 11

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
