| Overall Length: |
|----------------------------------------------------------------------------------------------------------------------------------------------------|
| 5.450 inches |
| Overall Width: |
| 1.550 inches |
| Special Features: |
| Capacitor 10, insulator 1, integrated circuit 2, microelectronic device 1, mount, transistor 6, printed wiring board 1, resistor 15, semiconductor |
| 4, terminal 10, transistor 6 |
| Shelf Life: |
| N/a |
| Unit Of Measure: |
| |
| Demilitarization: |
| Yes - demil/mli |
| Fiia: |
