Overall Length:

12.000 inches

Overall Height:

1.750 inches

Overall Width:

5.000 inches

Product Name:

Fsc application data: test set, synchrophaser, propeller

Special Features:

Capacitor 8, heat sink 1, inductor 1, microcircuit 4, printedwiring board 1, resistor 25, semiconductor device, diode 1, transformer 1, transistor 7

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
