Overall Length:

5.438 inches

Overall Height:

0.484 inches

Overall Width:

2.328 inches

Features Provided:

Electrostatic sensitive

Special Features:

Major components: printed wiring board 1; integrated circuit 3; capacitor 3; resistor 4; leaf contact 36; mounting configuration: plug-in mtd;
fsc application data: test sets, electronic systems, except specially designed

Precious Material And Location:

Contact body gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
