**End Application:**

Electronic components assembly

**Special Features:**

Capacitor 3, component board 1, connector 1, insulator plate 3, resistor 20, semiconductor device diode 7, terminal 5, transistor 9; fsc

application data: control, gunnery fire control, aircraft

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
