End Application:

Electronic components assembly

Special Features:

Capacitor 3, component board 1, connector 1, insulator plate 3, resistor 20, semiconductor device diode 7, terminal 5, transistor 9; fsc

application data: control, gunnery fire control, aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
