Product Name:

Fsc application data: transducer, altitude, flight control system

Special Features:

Printed wiring board 1, diode 2, capacitor 2, resistor variable 3, inductor 1, resistor fixed 7, terminal fork 28, integrated circuitoperational amplifier 4, post 2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
