**Product Name:**

Fsc application data: transducer, altitude, flight control system

**Special Features:**

Printed wiring board 1, diode 2, capacitor 2, resistor variable 3, inductor 1, resistor fixed 7, terminal fork 28, integrated circuitoperational amplifier 4, post 2

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**
