Overall Length:

4.800 inches

Overall Height:

1.363 inches

Overall Width:

4.550 inches

End Application:

Transceiver, radio set, communication, airborne

Special Features:

Capacitor 32, coil 8, connector 1, microcircuit 3, printed wiring board 1, resistor, fixed 78, resistor, variable 3, semiconductor device, diode 18, transistor 16; connector mounted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
