Product Name:

Fsc application data: test set, status transmitter, communication central

Special Features:

Capacitor 35, inductor 10, printed wiring board 1, crystal 2, socket 2, integrated circuit 26, resistor 9, connector 2, pin 5

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
