**Overall Length:**

6.141 inches

**Overall Width:**

5.354 inches

**End Application:**

Ground navigation aids

**Features Provided:**

Electrostatic sensitive

**Criticality Code Justification:**

Cbbl

**Special Features:**

Capacitor 32, potentiometers 6, pwb 1, resistor 42, transistor 24; telephone connecting and switching group, an/gtc-28

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
