**Overall Length:**

6.141 inches

**Overall Width:**

5.354 inches

**End Application:**

Ground navigation aids

**Features Provided:**

Electrostatic sensitive

**Criticality Code Justification:**

Cbbl

**Special Features:**

Capacitor 19, diode 12, microcircuit 7, pwb 1, resistor 47, transformer 2, transistor 1; telephone connecting and switching group, an/gtc-28

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
