## **General Description:**

Printed wiring board 1, capacitors 4, resistors 6, integrated circuit one, 7.000 in. Lg; 4.593 in. W; 1.125 in. H; mounting method, plug in and rack mtd

## **Fsc Application Data:**

Trainer, weapon systems, devices aircraft

Shelf Life:

N/a

**Unit Of Measure:** 

--

Demilitarization:

Yes - demil/mli
