Overall Length:

0.900 inches

Overall Height:

0.713 inches

Overall Width:

0.600 inches

End Application:

Electronic components assembly

Special Features:

Base 1, diode 2, resistor 6, terminal 8, transistor 2; mounting configuration: plugs into standard pin socket; fsc application data: fault locators, missile programmer-test station

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
