Overall Length:

7.410 inches

Overall Height:

0.650 inches

Overall Width:

5.188 inches

End Application:

Air defense system support

Special Features:

Capacitors 3; guide frame, left hand 1; guide frame, right hand 1; latch assembly 1; printed wiring board 1; resistors 16; semiconductor device diode 17; spacer 1; terminal board plug in assembly 1; test block assembly 1; transistors 2; transistor strip assembly right 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
