Overall Length:

4.400 inches

Overall Height:

0.640 inches

Overall Width:

2.750 inches

End Application:

Electronic components assembly

Special Features:

Board; capacitor 9; coil 1; insulator 2; resistor 26; semiconductor 9; strap 2; transistor 14; mounting configuration: four 0.189 in.Dia mtg holes irregularly spaced; fsc application data: radar set, airborne, except fire control and guided missile

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
