Overall Length:

6.000 inches

Overall Height:

0.938 inches

Overall Width:

5.188 inches

Features Provided:

Electrostatic sensitive

Special Features:

Major components: printed wiring board 1; contact 40; resistor 28; diode 12; capacitor 6; transistor 2; microcircuit, linear 3; relay 1; switch, thumbwheel 1; transformer 1; wire lead 15

Precious Material And Location:

Contacts gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
