Overall Length:

3.620 inches

Overall Height:

0.740 inches

Overall Width:

3.500 inches

End Application:

An/apx-64

Product Name:

Fsc application data: 1. Transponder, airborne

Special Features:

Board, printed wiring 1; capacitors 31; coils 5; delay line 1; integrated circuit 1; resistors 49; semiconductor device, diode 15; terminals 12; transistors 10

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
