**Overall Length:**

13.000 inches

**Overall Height:**

0.290 inches

**Overall Width:**

4.280 inches

**Special Features:**

Guide pins on connectors are polarized, guide pin near pin 1 end polarized at 80 degrees cw, guide pin near pin 56 end polarized at 320 degrees cw; major components: capacitor 34, connector 4, diode 2, insulator 1, microcircuit 55, printed wiring board 1, resistor 68, transistor 1; mounting configuration: connector and rack mounted

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
