Overall Length:

4.280 inches

Overall Height:

0.290 inches

Overall Width:

4.000 inches

Special Features:

Connector has polarized guide pins, guide pins near pin 1 end are polarized at 280 degrees cw, guide pins near pin 56 end are polarized at 120 degrees cw; major components: printed wiring board 1, connector 1, bus bar 6, capacitors 10, resistor 1, microcircuits 72; mounting configuration: connector and rack mounted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
