Overall Length:

6.000 inches

Overall Height:

1.107 inches

Overall Width:

5.200 inches

End Application:

Capacitor card assembly

Special Features:

Capacitor 29, coil 2, connector 4, diode 3, microcircuit 6, printed wiring board 1, resistor 23, shield, rf 2; mounting configuration: plug-in and rack mtd; component and wiring sides of board

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
