Overall Length:

6.000 inches

Overall Height:

1.102 inches

Overall Width:

5.200 inches

Features Provided:

Rfi shielding

Special Features:

Component and wiring sides of board are enclosed with rf shields; major components: capacitor 19, coil 2, connector 1, diode 6, filter 1, microcircuit 2, printed wiring board 1, resistor 20, shield rf 2, transistor 2; mounting configuration: plug-in and rack mounted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
