**Overall Length:**

4.280 inches

**Overall Height:**

0.290 inches

**Overall Width:**

4.000 inches

**Special Features:**

Connectors have polarized guide pins, guide pins near pin 1 end are polarized at 80 degrees cw, guide pins near pin 56 are polarized at 240 cw; major components: printed wiring board 1, connector 1, capacitors 10, resistors 20, bus bars 5, microcircuits 72; mounting configuration: connector and rack mounted

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
