Overall Length:

17.000 inches

Overall Height:

1.000 inches

Overall Width:

7.000 inches

End Application:

Power control panel radio communication equip. Except airborne

Special Features:

Provides relay switching and connections for radio set an/frc-155 v; 1 and 2 power distribution panel; major components: relay 30, diodes 61, resistors 4, fab board 1; mounting configuration: mounts by six holes, two holes on each end on 6.250 inch mounting centers, two holes near middle on 4.000 inch mounting centers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
