**Overall Length:**

17.000 inches

**Overall Height:**

1.000 inches

**Overall Width:**

7.000 inches

**End Application:**

Power control panel radio communication equip. Except airborne

**Special Features:**

Provides relay switching and connections for radio set an/frc-155 v; 1 and 2 power distribution panel; major components: relay 30, diodes 61, resistors 4, fab board 1; mounting configuration: mounts by six holes, two holes on each end on 6.250 inch mounting centers, two holes near middle on 4.000 inch mounting centers

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
