Overall Length:

9.312 inches

Overall Width:

6.468 inches

End Application:

Test set, engine trim part number bh112jb-131, a-10a acft

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Special Features:

Capacitor 4, display, pinlite 16, integrated circuit 16, printed wiring board 1, resistor; plug-in type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
