Overall Length:

6.812 inches

Overall Height:

0.672 inches

Overall Width:

6.188 inches

Product Name:

Fsc application data: converter, signal data, navigational display set

Special Features:

Capacitor 9, diode 28, microcircuit 2, printed wiring board 1, relay 5, resistor 32, transistor 8

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
