Overall Length:

6.500 inches

Overall Height:

0.875 inches

Overall Width:

3.500 inches

End Application:

Miscellaneous communication equipment

Special Features:

Contains amplifier frame insulator and gasket; major components: amplifier 2, capacitor 1, connector 2, crystal 2, printed wiring board 1, resistor 6; mounting configuration: plug-in mounted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
