Overall Length:

3.000 inches

Overall Height:

2.912 inches

Overall Width:

3.000 inches

Features Provided:

Electrostatic sensitive

Special Features:

Mounting base 1, printed wiring board 2, transistor 4, diode 2, inductance standard 1, transformer 1, capacitor 8, resistor 4, diode 12, fuse 1, circuit card assembly 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
